ROOFING DAY IN D.C.

2022

Dear Member of Congress:

Thank you for meeting with your constituents who work in the U.S. roofing industry during Roofing Day in D.C. 2022. The roofing industry represents tens of thousands of companies, hundreds of thousands of workers and billions of dollars of economic firepower. The entire supply chain creates one of the most significant economic multipliers in the construction industry.

The enclosed position papers represent the top legislative issues, developed by consensus, facing the roofing industry at this time. Virtually every segment of the industry participated in developing this information, including manufacturers, distributors, raw material suppliers, field workers, engineers, consultants, contractors and employees.

Below are the associations and organizations meeting with members of Congress during Roofing Day in D.C. 2022. They include a broad cross-section of the roofing industry, and each one represents citizens in your state and congressional district. We invite you to reach out and visit these constituents in their places of work when you are home.

Again, thank you for meeting with us and considering our views regarding critical issues. We look forward to working with you on these and other issues of importance to the roofing industry in the future!

Reid J. Ribble

CEO

National Roofing Contractors Association
